JHUNJHUNU (RAJ.) 333001**

OBJECTIVE:

1. Provide effective leadership and management to ensure the overall success of the college.
2. This includes creating a positive learning environment, supporting teachers and staff, promoting student achievement, maintaining college policies and procedures and fostering community relationships.
3. Lecturer can vary, but generally, it's to facilitate learning, inspire curiosity, foster critical thinking, and empower students to reach their full potential academically, socially, and emotionally.
4. To provide students the scientific skills and chemical knowledge essential for success.
5. To equip students with effective scientific communication skills.
6. To encourage the pursuit of lifelong learning.
7. To foster a commitment to ethical and social responsibilities.

SKILLS:

1. They must be able to inspire and motivate staff, students, and parents. Organizational skills are crucial for overseeing administrative tasks, budget management, and curriculum development.
2. Decision-making and problem-solving abilities are essential for handling conflicts and resolving issues that arise.
3. They must also be adept at building relationships with the community and fostering a positive school culture. Adaptability and resilience are vital for navigating the ever-changing landscape of education.
4. Excellent written and verbal communication skills.
5. Strong organizational and problem-solving abilities.
6. Proficient in using computer software for teaching and learning.
7. Knowledge of various teaching techniques.
