Activity Report	
Activity Name	Faculty Development Program on Creativity and Innovation
Title	Faculty Development Program on Creativity and Innovation
Date	27.07.2022
Venue	Career Mahavidyalaya Durana, Jhunjhunu
Organized by	Internal Quality Assurance cell
Faculty coordinator	Dr.Praveen Kumar
Resource Person	1. Dr. Hemraj Bairwa 2. Dr. Maha Singh Rao
Summary Of Event	<p><b><u>Introduction:</u></b></p> <p>Creativity is typically centered around original thought and knowledge, which unleashes potential and is an integral part of idea generation. Innovation, on the other hand, is used to turn the creative idea that you come up with into a viable solution. Key-Pointes Covered: Higher Education and Academic Pathways:</p> <p>For students considering higher education, information on different universities, colleges, courses, entrance exams, and scholarship options was shared. The importance of setting academic goals and planning for future studies was emphasized. Conclusion: In this chapter, we have discussed the concept of creativity and innovation, and identified various approaches on how to foster them. There are several all-encompassing lessons that can be derived from the previous discussion:</p> <ol style="list-style-type: none"><li>1. Innovation is the result of willful and serendipitous interconnections between the little ahas.</li><li>2. Innovation usually involves intellectual and technological maturity levels so that learning-by-doing is possible.</li><li>3. Innovation requires dialog, learning-about, encouragement, time, solitude, experimentation,</li><li>4. Construction, and some pressure, but not too much. Learning-about, learning-by-doing using prototyping, and hard work are the keys to creativity and successful innovation.</li></ol> <p>Date- 24.07.2022</p>

## Activity Report

Activity Name	Faculty Development Program on Communication Skills
Title	Faculty Development Program on Communication Skills
Date	17.09.2021
Venue	Career Mahavidyalaya Durana, Jhunjhunu
Organized by	Internal Quality Assurance cell
Faculty coordinator	Archana Sharma
Resource Person	1. Dr Rajesh Kumar 2. Dr. Narendra Swami
Summary of Event	<p><b><u>Introduction:</u></b> In the arts and sciences, communication is a key component. Reading and writing, speaking and listening are all involved in communication, but there is also the aspect of nonverbal communication, code transmissions, messages conveyed through music, and communications through many other means. Though you communicate simply by being within the world, learning and deliberately exploiting your abilities to improve verbal and visual communication skills is important. Verbal communication expresses how we feel and what we expect from others. In addition, it alters our relationship with others, utilizing victimizing language. Knowledge and awareness of a number of communication elements will go a long way to boosting what we tend to do when we communicate in person.</p> <p><b><u>Key-Pointes Covered:</u></b> <b>Higher Education and Academic Pathways:</b> For students considering higher education, information on different universities, colleges, courses, entrance exams, and scholarship options was shared. The importance of setting academic goals and planning for future studies was emphasized.</p> <p><b>Skill-Based Careers and Vocational Training:</b> Students were made aware of skill-based careers and vocational training options. The seminar highlighted apprenticeships, technical training programs, and certifications that lead to rewarding careers in specific industries.</p> <p><b><u>Conclusion:</u></b> Communication may break down as a result of many communication barriers that may be attributed to the sender or receiver. Therefore, effective communication requires familiarity with the barriers. Choosing the right channel for communication is also important, because choosing the wrong medium undermines the message.</p>
